

<http://aeic.net/>

2023 International Conference on **Automation Engineering and Intelligent Control (AEIC 2023)**, will be held in Shenzhen, China on February 10-12, 2023.

TOPICS

- Autonomous robots
- Behavioral decision making
- Classification
- Command and control systems
- Control system applications
- Data analysis, prediction and model identification
- Data fusion and mining
- Decision support systems
- Distributed decision making
- Dynamic systems modeling
- Fault diagnosis
- High speed communication
- Human factors in system design
- Hybrid systems
- Hyper network communication
- Image processing
- Image understanding
- Intelligent control systems
- Intelligent databases & information retrieval
- Intelligent information systems
- Parallel computing applications in identification & control
- Pattern recognition
- Prediction and time series analysis
- Qualitative and approximate-reasoning modeling
- Risk management
- Robot dynamics and control
- Robotics and automation
- Robotics and automation
- Signal processing
- System identification
- Transportation systems
- Applications
- Artificial intelligence

PUBLICATION

The accepted papers will be collected in the conference proceedings and indexed by Ei Compendex and Scopus.

KEY DATES

Submission Deadline **September 30, 2022**

Notification Date October 25, 2022

Registration Deadline November 15, 2022

SUBMISSION

- Please log in the [Electronic Submission System](#) and upload your paper
For presentation only, only abstract is needed
For presentation and publication, full paper is needed
- You can also send your paper directly to aeic_conf@academic.net
- The manuscript should be edited strictly in accordance with the conference template.
Template download: <http://aeic.net/files/Template.docx>

GUEST SPEECHES

More speakers will be updated continuously...

Prof. Pierre M Larochelle,
ASME Fellow
South Dakota School of
Mines & Technology

Prof. James Yang,
Ontario Tech University,
Canada

Asst. Prof. Zhen Gao,
McMaster University,
Canada
